# Notes on Non-GAAP Financial Measures

## **Note on Non-GAAP Financial Measures**

This document includes certain non-GAAP financial measures (organic net sales, adjusted gross margin, adjusted operating profit, adjusted operating margin, adjusted corporate expense, adjusted SG&A (excl A&P), adjusted EPS, adjusted pension income, adjusted equity earnings, adjusted income tax expense, adjusted net income, net debt, net leverage ratio, free cash flow, and free cash flow conversion). This appendix provides reconciliations of the non-GAAP financial measures included in this presentation to the most directly comparable financial measures calculated and presented in accordance with GAAP.

Management considers GAAP financial measures as well as such non-GAAP financial information in its evaluation of the company's financial statements and believes these non-GAAP financial measures provide useful supplemental information to assess the company's operating performance and financial position. These measures should be viewed in addition to, and not in lieu of, the company's diluted earnings per share, operating performance and financial measures as calculated in accordance with GAAP.

Definitions and additional information regarding the non-GAAP measures used in this presentation can be found in our Form 8-K furnished as of the date of this presentation with the Securities and Exchange Commission.

## **Forward-Looking Non-GAAP Financial Measures**

This document contains certain non-GAAP financial measures (organic net sales change, adjusted operating margin, adjusted EPS, adjusted tax rate, free cash flow conversion, net leverage ratio) that are presented on a forward-looking basis. Historically, the company has calculated these non-GAAP financial measures excluding the impact of certain items such as, but not limited to, foreign exchange, acquisitions, divestitures, restructuring expenses, the extinguishment of debt, hedging gains and losses, impairment charges, legacy legal contingencies, and unusual tax items. Reconciliations of these forward-looking non-GAAP financial measures to the most directly comparable GAAP financial measures are not provided because the company is unable to provide such reconciliations without unreasonable effort, due to the uncertainty and inherent difficulty of predicting the timing and the financial impact of such items. For the same reasons, the company is unable to address the probable significance of the unavailable information, which could be material to future results.

1. Includes advertising and promotion (A&P) expense of \$67.3 million and \$62.1 million for Q4 FY26 and Q4 FY25, respectively. A&P as a percentage of net sales was 2.3% and 2.2% for Q4 FY26 and Q4 FY25, respectively.

2. In Q4 FY26, we reported a GAAP net loss. In periods when we recognize a net loss, we exclude the impact of outstanding stock awards from the diluted loss per share calculation, as their inclusion would have an anti-dilutive effect. The adjusted diluted earnings per share calculation includes the impact of outstanding stock awards.

1. Includes advertising and promotion (A&P) expense of \$279.4 million and \$263.2 million for FY26 and FY25, respectively. A&P as a percentage of net sales was 2.5% and 2.3% for FY26 and FY25, respectively.
2. In FY26, we reported a GAAP net loss. In periods when we recognize a net loss, we exclude the impact of outstanding stock awards from the diluted loss per share calculation, as their inclusion would have an anti-dilutive effect. The adjusted diluted earnings per share calculation includes the impact of outstanding stock awards.
